Contents

1 Main Topic	5
1.1 sub topic	5
1.1.1 sub sub topic	6
1.1.2 sub sub topic 2	6
1.2 sub topic 2	6
1.3 sub topic 3	7
2 Main Topic 2	7
2.1 sub section under topic 2	7

List of Figures

1	First Image	9
2	second Image	10
3	third Image	11

List of Tables

1	Old	12
2	New	13

Abdulla

Hi, I am abdulla.I am 21 years old and studying CS ¹ in university of colombo school of computing and i travel by a bike
i like to drive to university in **Pulsar 135** but my dad tells to buy a **scooter** which i dont like to drive it(1).

how are you right now

this environment helps to use commands that are use in latex to print them without using them to format like **hi**,*new*

1 Main Topic

hi

1.1 sub topic

hi

¹Computer systems

1.1.1 sub sub topic

how are you

1.1.2 sub sub topic 2

hi

1.2 sub topic 2

1.3 sub topic 3

Abdulla

2 Main Topic 2

Yunus(2)

2.1 sub section under topic 2

nice one

- One
- Two
- Three

HI how are you every one

1. Abdulla
2. Yunus
3. Ayyob

∞

Figure 1: First Image

this is the image 1 in document

Figure 2: second Image

this is the image 2 in document

this is the image 3 in documnet

Figure 3: third Image

column one	column Two	column three
1	2	3
5	6	7

Table 1: Old

this is the Table 1 in documnet

what is hapening if we try to have both table in one page it prints all the captions one after another after printing the tables

column one	column Two	column three
1	2	3
5	6	7

Table 2: New

this is the table 2 in document

```
#include<stdio.h>
#include<stdlib.h>

int main(){
    printf("Hi how are you");
    return 0;
}
```
